# CARE FOR ORPHANS

## Orphans Sponsorship

Total Sponsored: 337  
Hifz Category: 219  
Non-hifz Category: 118

Every child deserves a happy, healthy childhood and the opportunity to build a brighter future. For millions of orphans worldwide, this is simply out of reach. Sponsoring an orphan is the most effective and rewarding way to help give children better futures.

To date our total number of orphans is 404. Currently, the total number of sponsored orphans are 337 (219 Tahfiz and 118 Non-Tahfiz orphans) and the total number of orphans awaiting sponsorship are 67 (33 Hifz and 34 Non-Hifz orphans).

Our orphans are from Aceh, Jogja, Gambia, Palestine, Senegal, Cambodia, Bangladesh, India, Nepal and Sri Lanka. The orphan sponsorship benefit the orphan's well-being, food, clothing, shelter and education (school kits).

When children find out they've been sponsored, the joy they feel is indescribable. Just knowing that someone across the globe cares means more than you can imagine.

Sponsoring a child in need will profoundly change the future for your child, and will change your own life as well. There are still many more orphans awaiting your sponsorship.

Mohamad Shaaban Badria, Gaza

Aseel Abu Sharar, Gaza

We are aiming to increase the number to reach our target of 500 orphans.

This is possible with your support!

## Umrah For Orphans

**Total Palestinian Orphans: 88**  
**From Jerussalem Al Quds: 44**  
**From Jordan: 44**

Global Ehsan Relief Singapore organised a 9-days “Umrah for Orphans” programme.

This project was implemented with the help of our international partner, Islamic Help. A total of 88 orphans were sponsored by our donors on this beautiful journey to the Holy Land.

They were amongst the group of 76 Palestinian orphans from Jerussalem Al Quds and 400 Palestinian orphans from Gaza camp in Jeresh. They took a 30-hour bus ride to Madinah.

For the 2nd batch of orphans, we managed to engage 2 Singaporean students, Muhammad Farhan and Muhammad Afiq, both who are studying in Jordan to facilitate the GER orphans group throughout the whole journey.

These orphans includes girls, widows and the visually impaired. It was an educational journey which encompasses of spiritual and emotional healing from the trauma they faced and also providing them the opportunity to visit historical places in Madina & Mecca.

# CARE FOR EDUCATION

## “Back To School”

Total Sets of School Supply: 200  
Total Benefitted: 200

Every school year, children from poor families are burdened by the thought of whether their parents are able to provide the required school supplies for them. This could result to them lacking the motivation to attend school and could also affect their self-esteem.

As we know, it is essential for these children to be equipped with the right leaning tools in order to have a better learning experience. Having adequate school supplies can drastically help to pave a path to a successful future.

In Sri Lanka, 200 school supplies were distributed to students from needy families from Kanthale and Kinniya DS divisions in Tricomalee district for our Care for Education “Back to School” program.

The set includes school bags, note books and stationery. It definitely put a smile of these children’s faces as they look forward to embark on their learning journey in seeking knowledge. It also reduces the financial burden of parents from these families.

## Aid Distribution

The Rohingya refugees are not forgotten. Millions of them in Bangladesh are still facing hardship. Their movements restricted and their ability to clean and feed themselves and their families became limited to impossible.

Global Ehsan Relief, together with our partner Islamic Help supports them in different aspects such as shelter, food packs, clean water supply, medical, hygiene packs and more, through your contributions!

### FOOD

Usually the contents of the food pack consists of  
*10kg of rice*  
*2kg of lentils*  
*2 other legumes each,*  
*2kg sugar*  
*2kg salt*  
*2kg milk powder,*  
*biscuits*  
*potatoes, cooking*  
*pots and etc.*

This is enough to sustain a family of five for at least a month.

### HYGIENE KIT

We are also providing them with Hygiene kits which is essential, especially with the Corona Virus pandemic going on in the past few months.

Maintaining good hygiene is crucial, especially for these vulnerable group as they are more prone to sickness and other diseases.

The contents of the kit includes a toothbrush, toothpaste, soap, shampoo, sanitary pads, diapers, clothes detergent, mattress, blankets, storage containers and etc.

### WATER

For water supply, water trucks providing clean water goes around the camp twice a day, priding 60,000 litres of water daily.

# CARE FOR HUNGER

## Food Aid Distribution

**Total Beneficiaries: 760**  
**Total Sets Distributed: 152**  
**Sri Lanka: 100 Indonesia: 50 Malaysia: 2**

Food Aid Distribution project has benefited many needy, and under-privileged families in countries such as Sri Lanka, Indonesia and Malaysia.

People living in developing countries, especially in rural parts are the most deserving of these food-aid packs which consist of non-perishable food items that can help to sustain them for a certain period and also ease their financial burden.

Without the food aid packs, it is difficult for these families to get by each day as they live in poverty and struggle with hunger.

Sri Lanka is a country with a population of 21.3 million of which 13% of them are Muslims. 60% of the total population lives below poverty line for various known reasons.

Earlier this year, our GER team in Sri Lanka met up with State and Mosque authorities to identify and select the most vulnerable and new resettled communities of Thoppur division in Trincomalee district.

100 beneficiaries from the poverty-stricken families in Thoppur division received the food aid packs. Distribution of 50 food aid packs were also carried out in Banda Aceh to the poor muallaf, and 2 sets were distributed in Malaysia to the widows.

They lack of basic needs such as food, accommodation, health, hygiene, sanitation and education etc. They have very limited access to nutritional food and are also vulnerable to all kinds of diseases for acute malnutrition due to extreme poverty.

## Cooked Meals Distribution

**Total Beneficiaries: 340**

**Total Meals Distributed: 340**

In January, 115 meals were distributed at a girls' orphanage - Pondok Yatim Putri Cot Suruy and 105 boxes were distributed at Panti Asuhan Al Kazeem Darul Imarah & Baitul Quran Siem Darussalam.

In February, We have given out 70 packets of meals to the blind community in UPTD RSBM Ladong, and 50 packets of meals to the orphans in an orphanage at Panti Asuhan Al Kazeem Putra, Lamjampok Montasik, Aceh Besar.

# GLOBAL WAKAF PROJECTS

## Mosque Construction

Completed: 1  
Total Beneficiaries: 700

Another mosque constructed in Tanzania earlier in January this year. Masjid Hajjah Jorah is located in Fenusi Village, Muheza District, Tanga, Tanzania. The village has a muslim population of 95%. Poverty prevails with majority of them living in straw-mud made houses. Previously there was a small mosque which was also made of mud.

It's limited space made it challenging to perform their congregational prayers or conduct any islamic classes or education for the children. Now, this new mosque is the center of 7 villages, and people from the different villages will be coming here to perform their Friday congregational prayers. It is also used as a Madrasah for the children to seek Islamic knowledge and learn the Holy Quran.

## Water Wells

Completed: 52  
Total Beneficiaries: 1820

In Sri Lanka, 37 water wells have been constructed thus far. The objective is to provide safe, clean water for the community. The construction took place in rural areas of Barricaloa District in Eastern province which provided the local communities with access to potable water. They were also educated on the benefits of potable water which can help to reduce diseases and infections such as diarrhea or cholera.

Local minders have also been assigned to and trained to manage each well. There are also 15 wells to be constructed in Pakistan, and more in Myanmar and Bangladesh. Truly there is nothing more valuable than knowing you have helped to improve someone's way of living by providing them with access to safe and clean drinking water.

## Quran Braille Distribution

**Total Distribute: 66**

**Total Beneficiaries: 66**

In Indonesia alone, there are more than 2 million blind muslims. Our Digital Braille Quran project aims to give them the chance to study the Al-Quran as we do. It comes with a digital pen where they can use to find and listen to all the Surahs and specific verses. Each book also includes the 30th chapter of the Quran written in braille to help them read. A wakaf program that brings immense rewards to both the beneficiaries and donors.

Nanda, one of our beneficiary who received the Digital Quran Braille, is 30 years old and suffers from glaucoma, a disease which took his sight 2 years ago. Nanda previously worked as government staff but lost his job ever since he went blind. He already knows how to recite the Al-Quran before he lost his vision however he told us how much he yearned to memorize the Quran. This Digital Quran Braille has indeed helped him do so.

In February, 65 Quran Braille were distributed in UPTS RSPM Ladong, Aceh Besar, Indonesia. The distribution of the Digital Quran Braille were carried out in special schools so that the students there can learn how to recite and memorize the Quran.

## Ablution Place

**Completed: 30**

**Total Beneficiaries: 1050**

An ablution place provides users with water for years and years. In rural areas, they are a lifeline for the inhabitants as they may be the only source of potable water.

With this ablution place, people living in remote areas will be able to take their ablution before praying. There are 30 ablutions places completed in Sri Lanka in 2020 to date.

# ➤ UPCOMING PROJECTS

## Integrated Orphans Centre

Orphans are at the heart of what we do. We believe that all children should have access to the tools they need to ensure a good future. Unfortunately, that's not always possible for orphans around the world.

In Aceh, Indonesia, thousands of orphan children get by with very little. Many orphanages lack funds, and cannot provide the children with a good education.

Their living facilities are also very minimal, without the comforts and homeliness that all children deserve. To solve this problem, we plan to build a place where orphans will be fully provided for in terms of education and basic needs.

Our Integrated Orphan Center will include the best academic facilities we can provide, including laboratories, a library, a sports hall, and more.

This IOC aims to integrate both Islamic and Quran education with national education curriculum to ensure the orphans are ready for life beyond the orphanage.

The children will receive education all the way until university level, at which point they will be equipped to choose their own path and begin their journey into adulthood.

The IOC will also include dormitories and living facilities, to ensure the children are well cared for and comfortable. Our goal is to empower orphans by giving them the means to achieve their dreams and build a fulfilling life for themselves.

Total Funds To Complete Project  
**SGD 1 Million**

Total Funds To Complete Project

**SGD 100,000**

## Orphan Home

We are embarking on a new project to build an Orphan Home, “Baitul Ehsan Home” in hopes to provide full support and care to the orphan children. It is a way to shape these children into an educated individual, great leaders and productive citizens.

We want to create a positive childhood where they feel secure and loved, and eventually ready to face the world. This orphan home will also have an in-house Tahfiz Program that will enable the children to learn and memorise the Quran.

This will be our very first Orphan Home project which will be located at Johor Bahru, Malaysia, accomodating about 20 orphans who will be living here with 2 caretakers. All the necessities provided will be similar to those at home and daily activity will be as usual. They will attend school (Public School) and be involved with co-curricular activities, and Hafz will be added in their syllabus at home.

## Childcare & Maternity Wing Hospital, Tanzania

Total Funds To Complete Project

**SGD 50,000**

The project will provide pregnant women access to maternity and infant care services non-existent before. It will significantly reduce maternity related deaths in Mlalo Lushoto District, Tanzania and provide awareness and free consultation regarding maternity and infant care for generations to come.

Medical care is essential during pregnancy, to ensure the health of both mother and baby. However, for many communities in rural Tanzania, there is a lack of adequate medical facilities. As a result, mothers do not seek out medical aid during pregnancy and childbirth, and are often unaware of the importance of proper medical care for themselves and their babies. This often leads to high infant mortality rates, and a high risk of death during childbirth.

This is a serious problem that requires a prompt solution. We are raising funds to build a maternity and childcare hospital in Tanzania, including all necessary medical equipment. The hospital will also conduct maternity health classes for the local mothers, to educate them on the importance of proper medical care. We aim to help lower the rates of mortality and provide mothers in rural communities with access to good medical care.

# ▶ GLOBAL EMERGENCY RELIEF

## SYRIA

With the crisis escalating in Idlib, Syria, there has been a massive influx of refugees fleeing to the Turkey-Syria border where they are living with limited shelter, water, and food. The recent violence forced more than 500,000 civilians out of their home, mostly children, women and elderly. Thousands of Syrian families are among the vulnerable, who have an inadequate food and water supply, hygiene facilities and a roof to protect them.

Due to the increase in the number of refugees, it resulted in overcrowding in the existing shelters. A critical need is shelter, compounded by the harsh winter conditions. School, mosques and even unfinished buildings are occupied leaving the remaining close to impossible in finding a shelter to survive. Apart from building shelters in Idlib, Aleppo, for the Internally Displaced People (IDP) in collaboration with our international partners, we also provide assistance to the displaced in distributing food parcels, clean water supply, hygiene kits as well as milk ration for children.

## YEMEN

**Total Beneficiaries: 1700**    **Family Food Aid Set: 100 (500 Benefitted)**  
**Winter Clothes: 200 (200 Benefitted)**  
**Gas Cylinders: 200 (1000 benefitted)**

Millions have been suffering under the four year conflict in Yemen. The worst humanitarian crisis in the world where 12 million people are on the brink of starvation. Thousands of civilians have died, many got injured as a direct result of the conflict. Others, due to malnutrition and diseases.

Global Ehsan Relief with the help of our international partners, recently concluded the emergency winter relief distributions for Internally Displaced People in the Sala district Taiz Governorate, Aldohra Camp, Yemen. A total of 100 family food aid parcels, 200 winter clothes and gas cylinders were handed out to the most needy, especially widows and orphaned families. Your contributions have made their daily activities like cooking and heating in these winter months much easier and convenient.

# KASHMIR

**Total Food Aid Sets: 100**

**Total Beneficiaries: 500**

For more than 70 years, India and Pakistan have driven a cycle of violence, retaliation and exploitation in Kashmir.

Although the United Nations had issued a statement calling on both countries to resolve their political issues peacefully while respecting human rights in the region, many of the Kashmiris are still cut off from their access to basic necessities such as food and medical aids.

Overall food supply running low and resident survive with the little of what they have. In many areas, residents needed to produce a curfew pass to leave their homes, even for medical emergencies.

Together with the help of our international partners, hundreds of food aid sets were distributed to the people of Kashmir recently, bringing them some relief and hope during these difficult times.

# INDONESIA

**Total Beneficiaries: 1010**

**Prayer Tools: 60 (60 Benefitted)**

**Hygiene Kits: 160 (800 Benefitted)**

**Baby Needs: 150 (150 Benefitted)**

Flash floods occurred throughout the Indonesian capital of Jakarta and its metropolitan area on the early hours of 1 January 2020, due to the monsoon season and heavy rainfall during year end of 2019.

At many parts of the city, water levels reached 30 to 200 cm. Some places, such as Cipinang Melayu, East Jakarta, water levels peaked at four metres. More than 397,000 residents had been evacuated to higher grounds and the government had also designated schools and government buildings as temporary shelters.

In several areas, evacuation efforts were hampered by rushing waters and blackouts. As of 6 January 2020, officials reported the death toll at 66, due to landslides, hypothermia, drowning, and electrocution. Many parts of the city had been left without power, as the power was switched off for safety reasons.

Our team from Global Ehsan Relief stepped in to distribute essential aid for the victims. After discussing with the local leaders and government regarding the distribution process and the urgent needs of the victims, we collaborated with Sedekah Rombongan to execute the project.

A total of 160 sets of hygiene kit (Soap, shampoo, washing detergent, toothpaste, brush, cleaning tools), 150 sets of baby needs (milk, clothes, diaper, snacks) and 60 sets of praying tools (telekung and sarong) were distributed.

# ▶ GLOBAL EMERGENCY RELIEF

## COVID-19 Emergency Relief

The world is currently faced with an outbreak and many are susceptible to the COVID-19 virus. Countries are now overwhelmed with the number of rising cases and deaths.

To date, more than 200,000 people globally have died, with more than 3 million confirmed cases spread across at least 170 countries. As more and more cases emerge all over the world, supplies are scarce and those countries need all the resources they can gather to fight the virus.

In many countries, a lockdown has been enforced to help contain the epidemic. As a result, many are losing their income, unable to pay for groceries, utilities, getting sick without the means to get treatment, and more.

Taxi drivers, food-service workers, flight attendants, and janitorial staff are some of many professions that could face months of financial struggle.

Refugees are also one of the most vulnerable ones.

Unfortunately, due to the lack of education and medical resources in various refugee camps and IDPs, if we do not quickly take proactive measures to educate and provide medical assistance/kits, it will spread very quickly and will result in thousands or hundreds of thousands of deaths.

The rising price of staple food is not helping either. This threatens to worsen the dire economic and hunger crisis, drastically affecting lives of people in both urban and rural areas.

We've called for a collective effort to step up for the vulnerable in these trying times, especially for widows, orphans, elderly and refugees.

You can provide aid to those vulnerable groups through providing hygiene kits, medical needs, food aid packs, meals, and water. Our team from Global Ehsan Relief Malaysia and Indonesia will be carrying out a distribution to the vulnerable groups who are most affected by this pandemic the following month.

## Mission Of Hope

**Total Beneficiaries: 340**

**Orphanage Spring Cleaning** | 27 Students + 4 Teachers Benefitted

**Food Aid Sets Distribution** | 30 Sets  
150 Villagers Benefitted

**Mushollah Refurbishment** | 27 Students + 4 Teachers Benefitted

## COMMUNITY INVOLVEMENT PROGRAMME

This program is an initiative whereby participants can experience light humanitarian work providing aid relief for orphanages all around Batam Riau, Indonesia. It was our 2nd Community Involvement Program in Batam and there were a total of 6 participants who took part this time round.

The activities they did were spring cleaning at Miftahul Ulum Orphanage, distribution of 25 food aid sets at the madrasah and 5 sets to the most needy at Kampung Ruli Yasmine, and painting of Miftahul Ulum's newly built Musollah. Apart from that, both participants and staff also managed to spend some quality time with the orphans while playing games together.

## Hike For Orphan

Global Ehsan Relief Malaysia organised a charity hiking to Mount Muntahak, in support of the orphans in need. That 2D1N event created the bond amongst 12 participants from Singapore, one from Malaysia, as well as three staff.

With most of them having prior hiking experience, they took that as an opportunity to gain even new experience and do it for a good cause. They also managed to spend some time at the waterfall. The second day started as early as 8.30am, where they first gathered to have a proper introduction about our organisation and how they have helped the orphans through this short event.

Despite the challenging condition and weather, all the participants showed their dedication and persevered. They exchanged words of encouragement and were being supportive of one another. It was not easy, but with a company like them was what made the hike memorable.

# COMMUNITY INVOLVEMENT PROGRAMME

## Charity Ride To Cambodia

Food Aid Distribution: 200 Sets (1000 Benefitted)  
Stationery Kits Distribution: 200 Sets (200 Students Benefitted)  
Kindness Day Distribution: 300 Ice Cream (300 Benefitted)  
Clothes Distribution: 50 Sets (50 Benefitted)  
Soccer Clinic (2 hours): 30 Children Benefitted

Cambodia is a Muslim minority country where the community is growing fast often in more rural and less accessible villages.

These villages require at least a six to nine-hour drive from the city. Families of the villagers made out of farmer parents with two to three children going to local village school.

Jalan Jalan Junkie, a group of motorcycle enthusiasts from Singapore collaborated with Global Ehsan Relief to carry out a charity ride event in their efforts to help raise funds for the most needy there.

They set off on their bikes from Singapore to Tbong Khmum in Cambodia where they were involved in community involvement activities with our team in Cambodia.

The activities included Food Aid Distribution, Stationery Kits Distribution, Kindness Day, Clothes distribution and conducting a Soccer Clinic for the children.

Despite bumps in the road, these brothers continued on their journey to fulfill their intention to help the needy.

## CIP @Aceh

<b>Picnic With Orphans: 95 Orphans &amp; Their Families Benefitted</b>	
<b>Teach English: 88 People</b>	<b>(80 Students &amp; 8 Teachers)</b>
<b>Kindness Day: 400 Ice Cream</b>	<b>(400 Locals)</b>
<b>Mosque Refurbishment: 1</b>	<b>(400 Villagers Benefitted)</b>
<b>Food Aid Distribution: 200 Sets</b>	<b>(1000 People Benefitted)</b>
<b>Gifts For The Elderly: 65 Bags</b>	<b>(65 Elderly benefitted)</b>
<b>Mini Food Distribution: 110 Sets</b>	<b>(550 People Benefitted)</b>

A group of participants from Singapore volunteered their time to give aid to different needy communities in Aceh, Indonesia on a 7-days Community Involvement Programme during the March school holidays.

The beneficiaries of this project are mostly those living in the rural areas who have limited access and resources for their daily life.

The background of these beneficiaries are mostly the poor, elderly, disabled, single parents/widows, orphans, refugees, and other people with limited access to health, education, and economic resources.

The volunteers from Singapore got the opportunity to participate and experience light humanitarian work firsthand.

The main activities includes a picnic with orphans (who are sponsored by GER donors), Mosque Refurbishment, Teaching English, Food Aid Distribution, and Kindness Day.

# OTHER PROJECTS

## Kindness Day

Items Distributed: 3900  
(3900 People Benefitted)

Ice Cream	1200	Burgers	200
Fresh Juices	300	Fruit Salads	600
Face Masks	1000	Butter Cookies	300
		Packet Drinks	300

Global Ehsan Relief has a monthly local event, “Kindness Day, whereby we giveaway free food/drinks to the public (sponsored by donors) as a gesture to encourage everyone to be kind towards one another and spread kindness through the spirit of giving!

We also celebrate kindness by giving an opportunity for people to give back to the community regardless of race, language or religion. Apart from that, the objective to create awareness and promote our projects both local and overseas.

These past 3 months with the public’s kind donations, we were able to provide simple treats and gifts to the community and those in need. A total of 3900 items were distributed.

# Charity Recycle Drive

**Total Clothes Collected: 1600 kg**

**Masjid Al-Istighfar: 980 kg**

**WestWood Secondary School: 80 kg**

Masjid Al-Istighfar collaborated with Global Ehsan Relief to have their students from their Teens aLIVE programme participate in a volunteerism project. About 40 students ages between ages 13-14 year olds benefitted from this.

They participated in the Charity Recycle Drive, donating their clothes and soft toys. The main objectives were to create awareness amongst students of the current efforts and the available options for them as youths to render their services to society for locals and international projects.

It also gives them some exposure to giving charity and doing humanitarian work and efforts and to encourage them to be philanthropic and know the importance of lending a helping hand to those in need. The students collected about 980kg of clothes and soft toys.

Another collection drive happened at Westwood Secondary School involving a group of secondary 4 and 5 students. This in-house collection drive is part of the school's Applied Learning Programme/Values-In-Action Programme. They managed to collect about 80kg of clothes and soft toys.

## Musollah Refurbishment

**Total Beneficiaries: 70 Villagers**

Earlier this year at Darul Imarah sub district, Aceh besar, another musollah refurbishment took place where it benefitted about 70 villagers.

The refurbishment was carried out by Global Ehsan Relief team in Aceh, with the help from volunteers.

# FINANCIAL REPORT

Following are the summary of the financial report, stating total expenditure of each project.

<b>CARE FOR ORPHANS:</b>		<b>GLOBAL EMERGENCY RELIEF:</b>	
Orphans Sponsored	\$20,220	Food Aid Sets	\$7000
Umrah For Orphans	\$88,000	Winter Clothes	\$1836
